# Lean In

- You do not have to attend a congress (but you should, it's great!)
- Monitor your country and patrol for problems / innovation / points of interest & share it
- Monitor the SIG groups on the website
- Ask questions, tell the group about new stuff, get answers to problems

# Get stuff done

- The FIPS community is a massive knowledge base
- Help your country & fellow patrollers improve
- Lean in to help global ski patrol improve
- Share information from your country
- Promotion of the value of FIPS to your country and fellow patrollers

FIPS is as good as the  
Patrollers that put in
